

Mighty Whopper™

Shown: Stuffing
Box and Outboard
Bearings

The Aerodyne "Mighty Whopper" MW valve is designed for the continuous discharge of loose, feathery, fluffy, and bulky materials. This valve provides for the smooth flow of material that would normally bridge in a standard rotary valve.

The valves are available in sizes up to 36" in diameter and 60" long. The Aerodyne MW Mighty Whopper provides consistently reliable, trouble-free processing capability for difficult materials.

MW Valve Features

- Open rotor
- 6 vane EPDM tipped rotor
- Chain drive w/gear motor, TEFC
- Maximum temperature: 200°F
- Maximum pressure: ±20" W.C.
- Heavy duty steel fabrication

Options

- Stuffing box and outboard gearing
- Stainless steel or AR steel construction
- Special wiper material
- Custom flange size
- Additional access doors and connections
- Abrasive application model

Applications

- Fiberglass
- Wood dust
- Paper
- Fibers
- Feathers
